21. Women face disadvantage, discrimination and oppression in various ways even today. Assess the statement by giving five suitable arguments. 3 or

Describe the main features of the Centre-State relations in the Federation of India. **Ans :**

- (a) The literacy rate among women is only 54 per cent compared with 76 per cent among men. Similarly, a smaller proportion of girl students go for higher studies. Many of them drop out because parents prefer to spend their resources for their boys' education.
- (b) The proportion of women among the highly paid and valued jobs is still very small. On an average an Indian woman works one hour more than an average man every day. Yet much of her work is not paid and therefore often not valued.
- (c) The Equal Wages Act provides that equal wages should be paid to equal work. However, in almost all areas of work, from sports and cinema, to factories and fields, women are paid less than men, even when both do exactly the same work. **or**
- (i) For a long time, the same party ruled both at the Centre and in most of the States. In those days, the Central Government would often misuse the Constitution to dismiss the State governments that were controlled by rival parties.
- (ii) The period of 1990 saw the rise of regional political parties in many States of the country. This was also the beginning of the era of Coalition Governments at the Centre.
- (iii) Since no single party got a clear majority in the Lok Sabha, the major national parties had to enter into an alliance with many parties including several regional parties to form a government at the Centre.

22. Explain how Martin Luther spoke in praise of print. 3 **Ans :**

Deeply grateful to print, Luther said, 'Printing is the ultimate gift of God and the greatest one.' Reasons:

- (i) In 1517, the religious reformer Martin Luther wrote Ninety Five Theses criticising many of the practices and rituals of the Roman Catholic Church. A printed copy of this was posted on a church door in Wittenberg.
- (ii) It challenged the Church to debate his ideas. Luther's writings were immediately reproduced in vast numbers and read widely.
- (iii) This led to a division within the Church and to the beginning of the Protestant Reformation. Luther's translation of the New Testament sold 5,000 copies within a few weeks and a second edition appeared within three months.

23. What is primitive subsistence farming? State two characteristics of this type of farming. 3

Ans :

Primitive subsistence farming is practised on small patches of land with the help of primitive tools like hoe, dao and digging sticks with family/community labour. **Characteristics:**

- (i) Farming depends upon monsoon
- (ii) Natural fertility of soil is used

24. Why do different individuals have different as well as conflicting notions of development goals? 3

or

Do you think the classification of economic activities into primary, secondary and tertiary are useful? Explain how. **Ans :**

Development goals may be common, different or conflicting:

- (i) Common Goals: There are some needs which are common to all like income, freedom, equality, security, friendship, etc.
- (ii) Different Goals: Development or progress does not mean the same thing for every individual. Each individual has his own idea of development. For example, development for a farmer might be irrigation facilities; for an unemployed might be employment opportunities for an unemployed youth it may mean employment opportunities, etc.
- (iii) Conflicting Goals: What may be development for some may become destruction for some may become destruction for some others. Example: Industrialists may want dams for electricity but such dams would displace the natives of a region by submerging their land.

or

Yes, the classification of economic activities into primary, secondary and tertiary is very useful because of the following reasons:

- (i) On account of the information it provides we come to know how and where the people of a country are employed.
- (ii) It helps in ascertaining as to which sector of economic activity contributes more or less to the country's GDP and per capita income.
- (iii) If the tertiary sector is developing much faster than the primary sector, it implies that agriculture is depleting, and the government must take measures to rectify this. The knowledge that the agricultural profession is becoming unpopular or regressive can only come if we know which sector it belongs to.

Hence, it is necessary to classify economic activities into these three basic sectors for smooth economic administration and development.

25. How is the concept of Self-Help Groups important for poor people? Give your view point. 3

or

'Democracy is an accountable, responsive and legitimate form of government'. Explain. **Ans :**

- (i) SHG's are a new source of providing loans to the rural poor particularly women. They provide loans to its members according to necessity.
- (ii) The rate of interest charged by SHG's is lesser than that charged by money lender. The SHG helps the borrowers overcome the problem of lack of collateral.
- (iii) Small loans are provided to members for instance meeting working capital needs such as buying seeds, raw materials, fertilizers or cloth. **or**
- (i) Most basic outcomes of democracy should be that it produces a government that is accountable to the citizens, and responsive to the needs and expectations of the citizens.
- (ii) Democracy is based on the idea of deliberation and negotiation. So, some delay is bound to take place but because it has followed procedures, its decisions may be both more acceptable to the people and more effective.
- (iii) A citizen who wants to know if a decision was taken through the correct procedures can find this out. She has the right and the means to examine the process of decision-making. This is known as transparency.

26. Read the sources given below and answer the questions that follows: 1+1+1=3

Source A : Romanticism and National Feeling

Let us look at Romanticism, a cultural movement which sought to develop a particular form of nationalist sentiment. Romantic artists and poets generally criticised the glorification of reason and science and focused instead on emotions, intuition and mystical feelings. Their effort was to create a sense of a shared collective heritage, a common cultural past, as the basis of a nation.

Source B : Economic Hardship in Europe The 1830s were years of great economic hardship in Europe. The first half of the nineteenth century saw an enormous increase in population all over Europe. In most countries there were more seekers of jobs than employment. Population from rural areas migrated to the cities to live in overcrowded slums.

Source C : The Revolution of the Liberals

In other parts of Europe where independent nationstates did not yet exist — such as Germany, Italy, Poland, the Austro-Hungarian Empire — men and women of the liberal middle classes combined their demands for constitutionalism with national unification. They took advantage of the growing popular unrest to push their demands for the creation of a nation-state on parliamentary principles — a constitution, freedom of the press and freedom of association.

Source A : Romanticism and National Feeling

26 (1) What are the other aspect of idea of nationalism?

Ans : The development of nationalism did not come about only through wars and territorial expansion. Culture played an important role in creating the idea of nationalism. Romanticism is most accepted cultural movement which helped and expressed the nationalist feelings in Europe.

Source B : Economic Hardship in Europe

26 (2) What do you meant by economic hardship in Europe?

Ans : The economic hardship in Europe refers to most of the European countries during 1830s faced more seekers of jobs than employment. Small producers in towns were often faced with stiff competition from imports of cheap machine-made goods from England, where industrialisation was more advanced than on the continent.

Source C : The Revolution of the Liberals

26 (3) What were the demand of Liberals? **Ans :** In the year of 1848, in many European countries liberal middle classes were emerged. They took advantage of the growing popular unrest to push their demands for the creation of a nation-state on parliamentary principles.

27. Discuss the various stages of the Non-Cooperation movement launched by Mahatma Gandhi. 3

Ans :

Various stages of the Non-cooperation movement launched by Gandhiji.

1st Stage – Surrender of titles that the government awarded.

2nd Stage – Boycott of civil services, army, police courts and legislative, councils, schools, and foreign goods.

3rd Stage – Then, in case the government used repression, a full civil disobedience campaign would be launched.

28. Explain any three values attached with the use of minerals in a sustainable manner. 3

Ans :

- (i) Our industries and agriculture immensely depend on mineral deposits and the substances manufactured from them. The total volume of workable mineral deposits is an insignificant fraction, i.e., one per cent of the earth's crust. Hence, minerals should be used cautiously.
- (ii) The geological processes of mineral formation are so slow that the rates of replenishment are infinitely small in comparison to the present rates of consumption.
- (iii) Mineral resources are finite and non-renewable. Rich mineral deposits are our country's extremely valuable but short-lived possessions.

Section-C

29. "The plantation workers too had their own understanding of Mahatma Gandhi and the notion of swaraj". Support the statement with arguments. 5 or

Write short note on: (1) Mazzini (2) Important features of National Assembly set up in 1848 in France. **Ans :**

- (i) For plantation workers in Assam, freedom meant the right to move freely in and out of the confined space in which they were enclosed, and it meant retaining a link with the village from which they had come.
- (ii) Under the Inland Emigration Act of 1859, plantation workers were not permitted to leave the tea gardens without permission, and in fact they were rarely given such permission.
- (iii) When they heard of the Non-Cooperation Movement, thousands of workers defied the authorities, left the plantations and headed home. They believed that Gandhi Raj was coming and everyone would be given land in their own villages.
- (iv) When the tribals chanted Gandhiji's name and raised slogans demanding 'Swatantra Bharat', they were also emotionally relating to an all-India agitation.
- (v) When they acted in the name of Mahatma Gandhi, or linked their movement to that of the Congress, they were identifying with a movement which went beyond the limits of their immediate locality. **or**

- (i) **Mazzini:** Italian revolutionary leader Giuseppe Mazzini. Born in Genoa in 1807, he became a member of the secret society of the Carbonari. He subsequently founded two more underground societies, first, Young Italy in Marseilles, and then, Young Europe in Berne, whose members were like-minded young men from Poland, France, Italy and the German states. So Italy could not continue to be a patchwork of small states and kingdoms. It had to be forged into a single unified republic within a wider alliance of nations.

This unification alone could be the basis of Italian liberty.

- (ii) Important features of National Assembly set up in 1848 in France: The year 1848 was one such year. Food shortages and widespread unemployment brought the population of Paris out on the roads. Barricades were erected and Louis Philippe was forced to flee. A National Assembly proclaimed a Republic, granted suffrage to all adult males above 21, and guaranteed the right to work. National workshops to provide employment were set up.

30. Read the extract and answer the questions that follow: 1+2+2=5 The Census of India records the religion of each and every Indian after every ten years. The person who fills the Census form visits every household and records the religion of each member of that household exactly the way each person describes it. If someone says she has 'no religion' or that he is an 'atheist', this is exactly how it is recorded. Thus we have reliable information on the proportion of different religious communities in the country and how it has changed over the years. The pie chart below presents the population proportion of six major religious communities in the country. Since Independence, the total population of each community has increased substantially but their proportion in the country's population has not changed much. In percentage terms, the population of the Hindus, JaMs and Christians has declined marginally since 1961. The proportion of Muslim, Sikh and Buddhist population has increased slightly. There is a common but mistaken impression that the proportion of the Muslims in the country's population is going to overtake other religious communities. Expert estimates done for the Prime Minister's High Level Committee (popularly known as Sachar Committee) show that the proportion of the Muslims is expected to go up a little, by about 3 to 4 per cent, in the next 50 years. It proves that in overall terms, the population balance of different religious communities is not likely to change in a big way.

- (i) What do you mean by atheist?
- (ii) How much growth rate of Muslim population fall in compare to last decadal census?
- (iii) What did happen in population proportion of six major religious communities in India since Independence? **Ans :**
- (i) The atheist in the broadest sense means an absence of belief in the existence of deities or God or Goddess. In other sense an atheist believe in no religion.
- (ii) The population of Muslim witness sharp fall in growth rate to 24.60% in 2001-2011 decadal census from the previous figure of 29.52% (19912001). Such sharp fall in population growth rate for Muslims didnot happened in the last 6 decades.
- (iii) Since Independence, the total population of each community has increased substantially but their proportion in the country's population has not changed much. But in percentage terms, the population of the Hindus, Jains and Christians has declined marginally since 1961

31. "Dynastic succession is one of the most serious challenges before the political parties." Analyse the statement. 5

Ans :

Dynastic succession is one of the most serious challenges before the political parties because: (i) Most political parties do not practice open and transparent procedures for their functioning.

(ii) There are few ways for an ordinary worker to rise to the top in a party.

(iii) In many parties, the top positions are always controlled by members of one family.

(iv) This practice is unfair to other members of that party and is also bad for a democracy.

(v) People who do not have adequate experience or popular support come to occupy position of power.

32. Why is road transport mainly preferred in India? 5 **Ans :**

(i) Roads can traverse comparatively more dissected and undulating topography than rail lines.

(ii) Roads can negotiate higher gradients of slopes and as such can traverse mountains such as the Himalayas.

(iii) Road transport is economical in transportation of few persons and relatively smaller amount of goods over short distances.

(iv) Roads also provides door-to-door service, thus the cost of loading and unloading is much lower.

(v) Road transport is also used as a feeder to other model of transport and they provide a link between railway stations, airports and seaports.

33. What is 'vote bank'? State any three reasons to say that caste alone does not determine the election results in India.

5

or

Describe some major functions of political parties. **Ans :**

(i) A 'vote bank' of one party usually means that a large proportion of the voters from that caste vote for that party.

(ii) No Parliamentary constituency in the country has a clear majority of single caste. So every candidate and party needs to win the confidence of more than one caste.

(iii) No party wins the votes of all the voters of a caste or community.

(iv) Many political parties may put up candidates from the same caste that will divide the votes.

(v) The ruling party or sitting MLA or MP frequently lose election in our country. This shows that people belong to one caste always do not vote for same party or candidate. **or** Functions of political parties:

(a) Parties contest elections.

(b) They put forward policies and programmes.

(c) Parties play a decisive role in making laws.

(d) Parties form and run government.

(e) Defeated parties in the election play its role of opposition to the parties in power.

(f) Parties shape public opinion.

(g) Parties provide people access to government machinery and welfare schemes.

34. How has NTPC achieved a distinction in preserving the natural environment and natural resources in the country?

5

Ans :

This has been done by NTPC through the following:

(i) Optimum utilisation of equipment adopting latest techniques and upgrading existing equipment.

(ii) Minimising waste generation by maximising ash utilization.

(iii) Providing green belts for nurturing ecological balance and addressing the question of special purpose vehicle for afforestation.

(iv) Reducing environmental pollution through ash pond management, ash water recycling system and liquid waste management.

Analyzing the table above, what is the share of formal sector in total credit?

- 25%
- 27%
- 52%
- 18%

Ans : (c) 52%

Section B

21. How and when nationalism captures the hearts and minds of people ? [3]

Ans :

When people begin to believe strongly that they are part of the same nation. Also, when they discover common bonds that unite them, when they share the same struggles and

have a common folklore, history and culture, then nationalism grips their hearts and minds. Nationalism is based on common heroic past of endeavours, sacrifices and devotion to the country. **or**

How did the non-cooperation become a movement ?

Explain ?

[3]

Ans :

Mahatma Gandhi proposed that the movement should advance in stages. It should begin with the surrender of titles awarded by the government, and a boycott of civil services, army, police, courts, legislative councils, schools—all institutions of the British Raj. Then foreign goods would be boycotted and burnt. In case the government used repression, a full civil disobedience campaign would be launched. During the summer of 1920 Mahatma Gandhi and the Ali brothers toured the nook and corners of India, mobilising popular support for the movement. At the Congress session at Nagpur in December 1920, the

Non-Cooperation programme was adopted. The NonCooperation-Khilafat movement began in January 1921. Various social groups participated in this movement which spread all over towns, cities and in rural areas of India.

22. What are the conditions under which democracies accommodate social diversities ? [3]

Ans :

- The majority always needs to work with the minority so that governments function to represent the general views.
- It is necessary that rule by majority does not become rule by majority community in terms of religion, race, linguistic group, etc. Different persons or groups should be allowed to form a government as a result of an election conducted.
- Democracies accommodates diversities based on religion, class and gender. **or**

No system is ideal for all countries and all situations. Explain. **Ans :**

No system is ideal for all countries and in all situations because party system is not something any country can choose. It evolves over a long time, depending on the nature of society, its social and regional divisions, its history of politics and its system of elections. Each country develops a party system that is conditioned by its special circumstances.

23. Read the source below and answer the question that follows

SOURCE-A

‘From the depredation of a lawless Banditti of colliers and their wives, for the wives had lost their work to spinning engines ... they advanced at first with much insolence, avowing their intention of cutting to pieces the machine, lately introduced in the woollen manufacture; which they suppose, if generally adopted, will lessen the demand for manual labour. The women became clamorous. The men were more open to conviction and after some expostulation were induced to desist from their purpose and return peacefully home.’

SOURCE-B

'It appears that twenty years ago, a brisk trade was carried on in the manufacture of cloth at Jahanabad and Bihar, which has in the former place entirely ceased, while in the latter the amount of manufacture is very limited, in consequence of the cheap and durable goods from Manchester with which the Native manufactures are unable to compete.'

SOURCE-C

'The Koshtis, like the weavers of the finer kinds of cloth in other parts of India, have fallen upon evil times. They are unable to compete with the showy goods, which Manchester sends in such profusion and they have of late years emigrated in great numbers, chiefly to Berar, where as day labourers they are able to obtain wages...'

SOURCE-A

23 (1) What made the women to make strong protest? Why? [1]

Ans : The introduction of Spinning Jenny, made the women to make strong protest as they feared they would lose their jobs.

SOURCE-B

23 (2) Give any one main reason for the decline of India's textile industry, according to the author. [1]

Ans : Indian textile industry declined because of the cheap and durable goods from Manchester (England) which were flooding the Indian markets.

SOURCE-C

23 (3) Why did the Indian cloth market decline. [1] **Ans :** The Indian cloth market declined due to the showy goods that flooded the markets from Manchester.

24. "Culture had played an important role in the development of nationalism in Europe during eighteenth and nineteenth centuries." Support the statement with examples. [3]

Ans :

1. Culture played an important role in creating the idea of the nation, art and poetry, stories and music helped to express and shape nationalist feelings.
2. Emotions, intuition and mystical feelings were not focused.
3. Their effort was to shared collective heritage, a common cultural past, as the basis of a nation.
4. They criticized the glorification of reason and science.
5. German philosopher Johann Gottfried popularised true spirit of nation through folk songs, folk poetry and folk dance. **or**

"Nationalism no longer retained its idealistic liberal democratic sentiment by the last quarter of the nineteenth century in Europe." Analyse the statement with examples.

Ans :

Nationalism in Europe- The Balkans:

1. During this period, nationalist groups become increasingly intolerant of each other.
2. Manipulations of the nationalist aspirations were there.

3. The Balkan was under the control of the Ottoman Empire.
4. Ideas of romantic nationalism spread in the Balkan.
5. They claimed for independence or political rights on nationality and used history to prove that they had once been independent but had subsequently been subjugated by foreign domination.
6. Russia, Germany, England, Austria-hungry were keen on countering the hold of other powers over the Balkans.
7. This led to a series of wars in the region and finally the First World War.

25. Write a short note on one-party system. [3] **Ans :**

One-party system is followed in China, North Korea and Cuba. This system was also prevalent in the USSR till its break up into 15 independent states. They are mostly communist countries. There is no competition in this system. The lone party nominates candidates and the voters have to say "yes" or "no" only against the name of the candidates. They have another choice of not voting at all. One-party system is popular in communist or authoritarian countries. Supporters of one-party system claim that this system helps the government in mobilising the talents of all citizens towards a common goal.

But this system limits the choices and freedom of the citizens, hence it is not a good system for a democracy. In democracy people must have at least two parties to choose from.

26. Why are petroleum refineries termed as 'nodal industries'? [3]

Ans :

Petroleum refineries act as a 'nodal industry' for synthetic textile, fertiliser and numerous chemical industries. During fractional distillation of mineral oil, apart from petrol, diesel and kerosene which act as fuel, a number of by-products like naphtha, phenyl, paraffin wax, asphalt or tar and a number of petrochemicals are obtained. Chemical fertilisers, insecticides and chemicals, artificial fibres and artificial rubber are products of petrochemicals. Thus, petrochemicals, provide raw materials for fertilisers, numerous chemicals, synthetic textiles, synthetic rubber and plastic industries.

27. Why are metalled roads better than unmetalled roads? What is the role of border roads and national highways in transportation? [3]

Ans :

Metalled roads are made of either cement, concrete or even bitumen of coal and are therefore more durable than unmetalled roads. Unmetalled roads go out of use in rainy season. They are not durable. Border roads play an important role in connecting strategically important difficult areas and help in the economic development of the area. National Highways are the primary road system which links various parts of the country. They provide the backbone of transportation. **or**

Explain three factors that make minerals extraction commercially viable. [3]

Ans :

- i. The mineral content of the ore must be in sufficient quantity.
- ii. The type of formation or structure determine the relative ease with which mineral ores are extracted. Extraction should not be too difficult.
- iii. The cost of extraction of the minerals must be less than the value of minerals.

28. Why were the 1830s called the years of great economic hardship in Europe? Give any three reasons. [3] **Ans :**

The 1830s were called the year of great economic hardship in Europe.

- i. During the first half of the nineteenth century there was an enormous growth of population requiring lakhs of jobs. Due to the rise of population, unemployment also increased.
- ii. The job seekers or unemployed people migrated from villages to cities where they lived in overcrowded slums. Small producers in towns faced stiff competition from import of cheap goods from England.
- iii. Peasants struggled under the burden of feudal dues and obligations. The rise of food prices or a year of bad harvest led to widespread poverty.

Section C

29. Write a short note on the developments or innovations in the printing technology in the 19th century. [5] **Ans :**

There were a series of innovations in the printing technology in the 19th century.

- i. Richard M. Hoe of New York perfected the power-driven cylindrical press. He could print 8000 sheets per hour. His press was very useful for printing newspapers.
- ii. The late 19th century saw the development of offset press capable of printing six colours at a time.
- iii. Electrically-operated press in the early 20th century increased the rate of printing operations.
- iv. Methods of feeding paper improved, quality of plates became better, machines were fed automatic paper reels and photoelectric controls of colour register were introduced.

or

How did French territory undergo changes due to the Treaty of Vienna in 1815 ? [5]

Ans :

Representatives of European powers, i.e. Austria, Britain, Russia and Prussia, met at Vienna in 1815 after having defeated Napoleon. The Austrian Chancellor Duke Metternich was the head of the Congress. Here the Treaty of Vienna of 1815 was drawn up to undo the changes after the Napoleonic wars. Thus the Bourbon dynasty, deposed during the French Revolution, was put back in power even as France lost the territories it had annexed under Napoleon.

To prevent every future expansion of France, many states were set up on France's boundaries. So the kingdom of Netherlands including Belgium came up in the north, while Genoa came together with Piedmont in the south. Prussia received some important new territories on its

western frontiers. Austria gained control of northern Italy. The 39 states in the German Confederation as set up by Napoleon underwent no changes. In the east, Russia received a part of Poland and Prussia received a part of Saxony.

The objective was to restore the monarchies overthrown by Napoleon and create a new conservative order in Europe.

30. Read the extract and answer that follows [5] 'The enormous expanse of Bombay city; its great and palatial private and governmental mansions; broad streets which accommodate up to six carriages abreast ... the struggle to enter the merchants lanes; the frequent troublesome noise of passenger and goods trains whistles and wheels; the wearisome bargaining in every market, by customers who wander from place to place making enquiries with silver and notes in their pockets to buy a variety of commodities; the throngs of thousands of boats visible in the harbour ... the more or less rushed pace of official and private employees going to work, checking their watches ... The clouds of black smoke emitted by factory chimneys and the noise of large machines in the inwards of buildings... Men and women with and without families belonging to every caste and rank travelling in carriages or horseback or on foot, to take the air and enjoy a drive along the sea shore in the slanting rays of the sun as it descends on the horizon ...'

(i) What is the source of this passage?

Ans : This passage is taken from 'The Obverse Side of British Ruler or Out Dire Poverty' by G.G. Agarkar.

(ii) Give some key features of the city of Bombay. **Ans :** Main features of Bombay City : a. Its vast expanse.

- b. Its great and palatial private and governmental mansions.
- c. Its broad streets

- a. Customers wandering from place to place to buy varieties of commodities.
- b. Officials and private employees going to work.
- c. Men and women travelling in carriages or horsebacks or on foot along the sea shore.

31. Do you agree with the view that casteism has not disappeared from Indian society ? Discuss. [5] **Ans :**

Although the old barriers of caste system are breaking down, casteism still continues to be there in the Indian society. Some of the older aspects of caste system have persisted :

- i. Even now most people many within their own caste or tribe.
- ii. Untouchability has not ended completely, despite the constitutional provisions to prohibit it.
- iii. Effects of centuries of advantages and disadvantages continue to be felt today. For example, the caste groups that had access to education under the old system, have done very well in acquiring modern

education as well, while those that were prohibited have lagged behind.

- iv. Caste continues to be closely linked to economic status.
- v. There is 'caste in politics' and 'politics in caste'.

32. Why is the tertiary sector becoming so important in India? Give reasons. [5]

Ans :

- i. Almost all the basic services are included in tertiary sector. The government has to take responsibility for provision of these services.
- ii. Greater development of the primary and secondary sectors has created more demand for services.
- iii. As income levels have risen, affluent sections have been availing more services like eating out, tourism, shopping, private hospitals and schools, etc.
- iv. Over the past few decades there has been vast expansion of services based on information and communication technology.

33. What makes India a federation ? [5]

Ans :

The Constitution declared India as a Union of states. The following points clearly show that the Indian Union is based on the principles of federalism –

- i. The Constitution clearly provided a three-fold distribution of legislative powers between the Union government and the State governments in the three lists—Union, State and Concurrent lists. ii. Sources of revenue for each level of government are clearly specified to ensure its financial autonomy.. iii. This sharing of power is basic to the structure of the Constitution, and it cannot be changed by Parliament; it has to be ratified by at least half of the state legislatures.
- iv. In a federation, judiciary solves the disputes between different levels of government. In any such case of a dispute, the High Courts and the Supreme Court make a decision. **or**

In which way does the language policy in India help our country avoid the situation that Sri Lanka is in today ? [5]

Ans :

Our Constitution did not give the status of national language to any one language. Although Hindi was identified as the official language, there were many safeguards to protect other languages.

According to the Constitution, the use of English for official purpose was to stop in 1965. However, many nonHindi speaking states demanded that the use of English should continue. The Central government decided to continue the use of English alongwith Hindi for official purposes. Hindi is not imposed on states where people speak a different language. The flexibility shown by Indian political leaders helped our country avoid the kind of

situation that Sri Lanka finds itself in. In Sri Lanka, the major social groups are the Sinhala-speakers (74%) and the Tamil-speakers (18%). In 1956, an Act was passed to recognize Sinhala as the only official language, thus disregarding Tamil. Due to this, and other reasons, the relations between the Sinhala and the Tamil communities got strained over time.

34. The table below shows the estimated number of workers in India in the organised and unorganised sectors. Read the table carefully and answer the questions that follow :

Worker in different Sectors (in Millions)			
Sector	Organised	Unorganised	Total
Primary	2	240	242
Secondary	9	54	63
Tertiary	17	76	93
Total	28	370	398
Total Percentage	7%	93%	100%

- i. Which is the most important sector that provides most jobs to the people ?
- ii. What is the number of persons engaged in the unorganised sector ?
- iii. Why is the unorganised sector more important ? Give one reason.
- iv. Which is the most important organised sector ? Give one reason. [5]

Ans :

- i. The primary sector is the most important sector that provides most jobs to the people.
- ii. The number of person engaged in the unorganised sector is 370 million.
- iii. Unorganised sector is more important because it provides employment to a far greater number of people (93%), specially from lower strata of society, when compared to those employed by the organised sector.
- iv. Tertiary sector is the backbone which further boosts the growth of primary and secondary sectors. For example, infrastructure and communication help in smooth flow of goods and services across the country.

21. Some people think that democracy produces less efficient and effective government. Do you agree with their views ? [3]

Ans :

It is true that some delay is bound to take place in democracy as it is based on deliberation and negotiation. It is also true that non-democratic rulers can be very quick and efficient in decision-making and implementation. But they may take decisions that are not acceptable to the people and are forced on them. On the other hand, because democratic governments follow procedures, their decisions may be more acceptable to the people and more effective. So I do not agree with the view that democracy is a less effective and an inefficient form of government. **or**

Mention any four challenges faced by political parties in India ? **Ans :**

- i. Lack of internal democracy within parties ii. Challenge of dynastic succession iii. Role of money and muscle power in parties, especially during elections.
iv. Parties do not seem to offer a meaningful choice to the voters.

Dynastic succession means that the power remains in the hands of a few. They pass on this power to their family members, who may not have popular support or enough experience in politics and governance. In many parties, the top positions are always controlled by members of one family.

22. Explain the two important factors that shaped Indian politics during the 1920s. [3]

Ans :

- i. The first was the worldwide economic depression which brought the agricultural prices crashing down in India. Farmers could not sell their produce and the whole countryside was in turmoil.
ii. The British constituted a statutory commission in 1927 under Sir John Simon. The aim was to diffuse nationalism aroused by the Non-Cooperation Movement. The Commission was to look into the functioning of the constitutional system in India. It was an all-white commission, with not a single Indian member in it.

It set the political world in India on fire and led to Gandhiji starting the Civil Disobedience Movement. **or** “Method of reinterpretation of history was followed to encourage feeling of nationalism.” Give any three arguments to support this statement. **Ans :**

We love our nation and are proud of its achievements. To awaken the feeling of nationalism many things were practised but the main part was History writing. The Indians started writing glorious events of the past like the stories full of bravery, courage and patriotism. They started developing writing concerned with beautiful art and architecture, great spiritual heritage of India. Some personalities were presented as national heroes like — Shivaji, Maharana Pratap and others. So it developed into a nationalist style of history writing which revived the people’s pride in their past achievements.

23. Read the source below and answer the question that follows

SOURCE-A

‘A nation is the culmination of a long past of endeavours, sacrifice and devotion. A heroic past, great men, glory, that is the social capital upon which one bases a national idea. To have common glories in the past, to have a common will in the present, to have performed great deeds together, to wish to perform still more, these are the essential conditions of being a people. A nation is therefore a large-scale solidarity ... Its existence is a daily **plebiscite** ... A province is its inhabitants; if anyone has the right to be consulted, it is the inhabitant. A nation never has any real interest in annexing or holding on to a country against its will. The existence of nations is a good thing, a necessity even. Their existence is a guarantee of liberty, which would be lost if the world had only one law and only one master’.

SOURCE-B

‘The aim of the zollverein is to bind the Germans economically into a nation. It will strengthen the nation materially as much by protecting its interests externally as by stimulating its internal productivity. It ought to awaken and raise national sentiment through a fusion of individual and provincial interests. The German people have realised that a free economic system is the only means to engender national feeling.’

SOURCE-C

‘Let us ask how many men, possessed by thoughts of living and dying for the sake of Liberty, would be prepared to fight

for the freedom of the entire people, of all human beings? When asked this question, they would all too easily respond with a “Yes!”, though their untiring efforts are intended for the benefit of only one half of humanity - men. But Liberty is indivisible! Free men therefore must not tolerate to be surrounded by the unfree ...

SOURCE-A

23 (1) Explain the meanings of ‘Plebiscite’. [1] **Ans :** A direct vote by which all the people of a region are asked to accept or reject a proposal.

SOURCE-B

23 (2) What is theme of this passage? [1]

Ans : The theme of this passage is the free economic system.

SOURCE-C

23 (3) Is the writer in favour of giving equal rights to women or not? [1]

Ans : Yes, the writer is in favour of granting equal rights to women.

24. Give reasons as to why the ideal location of sugar mills is near sugarcane producing areas. Support the statement with reasons. [3]

Ans :

Sugar industries are concentrated in the sugarcane producing areas:

- (i) Sugarcane is a perishable good, it loses its sucrose content if delays in transportation occurs, so it needs to be in the nearby place.
- (ii) Sugarcane is bulky and perishable, so transportation cost reduces.
- (iii) Near it is to the production area, its production automatically increases.
- (iv) In haulage, its sucrose content reduces.

Challenges :

- (i) Seasonal nature of the industry.
- (ii) Old and inefficient methods of production.
- (iii) Transport delays in reaching cane to the mills.
- (iv) Need to maximise the use of bagasse.**or**

Suggest any five measures to control industrial pollution in India. **Ans :**

1. Minimizing the use of water for processing by reusing and recycling it in two or more successive stages.
2. Harvesting of rainwater to meet water requirements
3. Treating hot water and effluents before releasing them in to rivers and ponds.
4. Treatment of industrial effluents can be done in three phases.
5. Primary treatment by mechanical means involves screening, grinding, flocculation and sedimentation, Secondary treatment by biological process, Tertiary treatment by biological, chemical and physical processes. This Involves recycling of wastewater.

25. Why is mica considered to be an indispensable mineral for the electronics industry? Mention the names of the main mica-producing areas of India. [3]

Ans :

Mica is a bad conductor of electricity. Due to its excellent dielectric strength, low power loss factor, insulating properties and resistance to high voltage, mica is an indispensable mineral for the electrical and electronics industries. Koderma-Gaya-Hazaribagh belt of Jharkhand is the leading mica-producing area of India. In Rajasthan, the major mica-producing area is around Ajmer. In Andhra Pradesh, the Nellore mica belt is an important mica-producing area.

26. In which year was the unification of Italy completed ? Mention two features of the unification movement. [3] **Ans :**

Unification of Italy was completed in the year 1870.

- (i) Despite formidable hurdles which beset the path of unification of Italy, the feeling of liberty, equality and patriotism could not remain suppressed among Italians for a long time. Many patriots, supporters of democracy, writers, philosophers and secret institutions resolved to launch a combined struggle to achieve liberty and unification for Italy.
- (ii) Mazzini, Cavour and Garibaldi played a crucial role in the unification movement.

27. Mention any three problems faced by cotton textile industries in India. [3]

Ans :

Three problems faced by cotton textile industries in India are as follows :

- (i) Power supply is erratic and machineries are outdated. They need to be upgraded, mainly in weaving and processing sectors.
- ii. Output of labour is low.
- iii. They face stiff competition from the synthetic fibre industry. **or**

‘Energy saved is energy produced’. Justify the statement by mentioning any six measures to conserve the energy resources. **Ans :**

- i. Use public transport systems instead of individual vehicles.
- ii. Switching off electricity when it is not in use.
- iii. Using power saving devices.
- iv. Using non-conventional sources of energy.
- v. Use of power saving electrical appliances.
- vi. Minimum use of high power consuming electrical gadgets ie, air conditioner, room heaters etc.

28. What do the banks do with the ‘public deposits’ ?

Describe their working mechanism. [3]

Ans :

Banks accept deposits from the public and use the major portion of these deposits to extend loans. There is a huge demand for loans for various economic activities. Banks make use of these deposits to meet the loan requirement of the people and thereby earn interest. This is, in fact, the main source of income of the banks. In this way, a bank acts as a mediator between those who have surplus funds (the depositors) and those who are in need of these funds (the borrowers). Banks charge a higher interest rate on loans than what they offer on deposits.

Section C

29. Write down important causes and effects of the Second World War. [5]

Ans :

The Second World War started in 1939 and continued up to 1945.

Causes:

Many factors caused the Second World War. The Great Depression of 1929, competition to acquire more and more colonies, extreme nationalism, failure of the League of Nations, rise of dictatorship in Germany and Italy under Hitler and Mussolini respectively were some of the important causes.

Effects:

- i. About 3 per cent of the world's population perished.
- ii. Two crucial developments shaped the post-war scenario. They were :
 - (a) The emergence of USA and the USSR as superpowers. At least 6 million people died, and millions more were injured. Most of the deaths took place outside the battlefields. More civilians than fighting soldiers died. Vast parts of Europe and Asia were devastated and several cities were destroyed by aerial bombings. It caused enormous economic devastation and social disruption. Reconstruction was long and difficult.
 - (b) The establishment of international organisations like the UNO, IMF and World Bank to maintain peace and stability. **or**

Explain any three problems faced by the Indian weavers by the turn of the 19th century. **Ans :**

The three problems faced by weavers by the turn of the 19th century were :

- i. **Decline in export market :** By the 1860s insufficient supply of raw cotton of good quality affected the Indian weavers. Due to the American Civil War, the supply of raw cotton from USA had stopped. Britain turned to India for new cotton export. This resulted in price rise and the Indian weavers suffered. In the beginning of the 19th century, there was a sharp decline in Indian export of cotton piece exports. In 1811-12, 33% of exports were made in piece goods. In 1850-51, it was no more than 3%. ii. The British started dumping mill-made and machine-made British goods in India. British exports to India for textile goods increased from 31% to over 50% in the 1870s. The local markets collapsed as they were glutted with Manchester imports. Machine-made goods were sold at lower prices and Indian weavers could not compete with them.
- iii. Another problem cropped up for weavers. At the end of the 19th century, India started producing cotton textiles in factories and punished the weavers for delays in supply, often beating and flogging them. The weavers lost the power to bargain for prices and sell to different buyers. The Company paid them a miserably low price. The loans tied them to the Company. It led to deserted villages and migration to other cities.

30. 'The task of the native newspapers and political associations is identical to the role of the Opposition in the

House of Commons in Parliament in England. That is of critically examining government policy to suggest improvements, by removing those parts that will not be to the benefit of the people, and also by ensuring speedy implementation.

These associations ought to carefully study the particular issues, gather diverse relevant information on the nation as well as on what are the possible and desirable improvements, and this will surely earn it considerable influence.'

(i) What is the source of the above passage? **Ans :** This extract has been taken from a newspaper 'Native Opinion'.

(ii) What is the role of the native newspapers and political associations in democracy?

Ans : In a democracy, the task of native newspapers and political associations is identical to the role of the opposition in the House of Commons in Parliament in England.

(iii) How can these associations improve the outcome of a particular issue?

Ans : These associations can improve the outcome of a particular issue of carefully studying it, gather diverse relevant information, critically examine government policy and suggest improvements.

31. Mention four geographical requirements each for the growth of tea and sugar-cane. [5]

Ans :

Tea is the main beverage crop of India. Four geographical requirements for its growth are :

- (i) The tea plant grows best in tropical and subtropical climate.
- (ii) Tea bushes require warm and moist and frost-free climate with temperature between 20°C to 30°C and annual rainfall of 150 to 250 cm.
- (iii) Frequent showers evenly distributed over the year ensure continuous growth of tender leaves.
- (iv) Deep, fertile, well-drained soil, rich in humus and organic matter are ideal for its growth. Hence, gently rolling topography in uplands is favourable for its cultivation.

Four geographical conditions required for growth of sugar-cane are :

- i. Sugar-cane grows best in tropical and subtropical climate. It is an annual crop requiring a year for maturing. ii. It grows well in hot and humid climate with temperature of 21°C to 27°C and an annual rainfall between 75 cm and 100 cm.
- iii. Frost is injurious for the plant and rainfall before ripening decreases sucrose content. Hence, frostfree weather and short, cool, dry winter during ripening and harvesting are favourable.
- iv. It can grow in a variety of soils, but clayey alluvial soil of northern plains and black soil in south are ideal for its growth.

32. How does communalism create problems in politics? [5]

Ans :

Communalism creates problems in politics in the following ways:

- (i) The way one uses religion in politics is communal politics. It creates problems when one sees religion as the basis of the nation.
- (ii) When one religion considers itself superior to other religions.
- (iii) When there is discrimination against the followers of the other religion.
- (iv) When state power is used to help one religion to dominate other religious groups.
- (v) When the demands of one religious group are in opposition to others.

33. Distinguish between primary sector and secondary sector. [5]

Ans :

	Primary Sector	Secondary Sector
1.	Primary sector includes all agricultural and allied activities, e.g., forestry, fishing, mining, quarrying, etc.	This sector is also known as manufacturing sector.
2.	It produces goods by exploiting natural resources such as land, water, forests, mines, etc.	Manufacturing sector converts one type of commodity into another. For example – manufacturing of cotton cloth from cotton yarn, sugar from sugar-cane, etc.
3.	Farmers buy many goods such as tractors, fertilisers, equipment, etc. from secondary sector. Thus, it shows the dependence of primary sector on secondary sector.	Similarly, manufacturing sector needs raw materials such as cotton yarn to produce cotton, sugarcane to produce sugar, wood for furniture, etc. This shows the dependence of secondary sector on primary sector.
	Primary Sector	Secondary Sector
4.	Agriculture, a part of the primary sector, is the largest sector and plays the most important role in economic development.	Manufacturing is the backbone of the economy and creates demands in other sectors.

or

How do banks mediate between those who have surplus money and those who need money. [5] Ans :

- i. People keep their surplus money in banks for safety and interest which is provided by banks to them.
- ii. Banks again keep only a small proportion of their cash with themselves. These day's banks keep only 15% of the total deposits with them. Rest of the money banks keep extending as loans. Banks charge interest on loans which is higher than the interest on deposits.
- iii. This surplus interest becomes the source of income for the banks.
- iv. The 15% of cash deposits which banks keep with them helps to carry on with, day-to-day transactions. Like every day, depositors come to withdraw some of their. (Any three)

34. Name the ore from which aluminium is obtained. Why is aluminium considered to be an important metal? Name the areas which have rich deposits of the ore of aluminium. [5]

Ans :

Aluminium is obtained mainly from bauxite. Though several ores contain aluminium, it is from bauxite, a reddish-brown, residual clay-like substance, that alumina and later aluminium is obtained. Bauxite deposits are formed by the decomposition of a wide variety of rocks rich in aluminium silicates. Aluminium is considered to be an important metal because of its properties and wide variety of uses.

- a. It combines the strength of metals such as iron with extreme lightness. So it is used for manufacturing of aircraft and transport vehicles.
- b. It has great malleability. It is used for construction purposes to make doors, windows, rods and for making utensils.
- c. It also has quality of good conductivity and is used in electrical conductors.

Rich deposits of bauxite, the ore of aluminium, are found mainly in the Amarkantak plateau, Maikal hills and the plateau region of Bilaspur-Katni in Madhya Pradesh and Chhattisgarh. Odisha is the leading producer accounting for about 45 per cent of the total bauxite production in the country.

Section D MAP SKILL BASED QUESTION

35. (a) Two places (A) and (B) have been marked on the given outline map of India. Identify them and write their correct Name on the line drawn near

them.

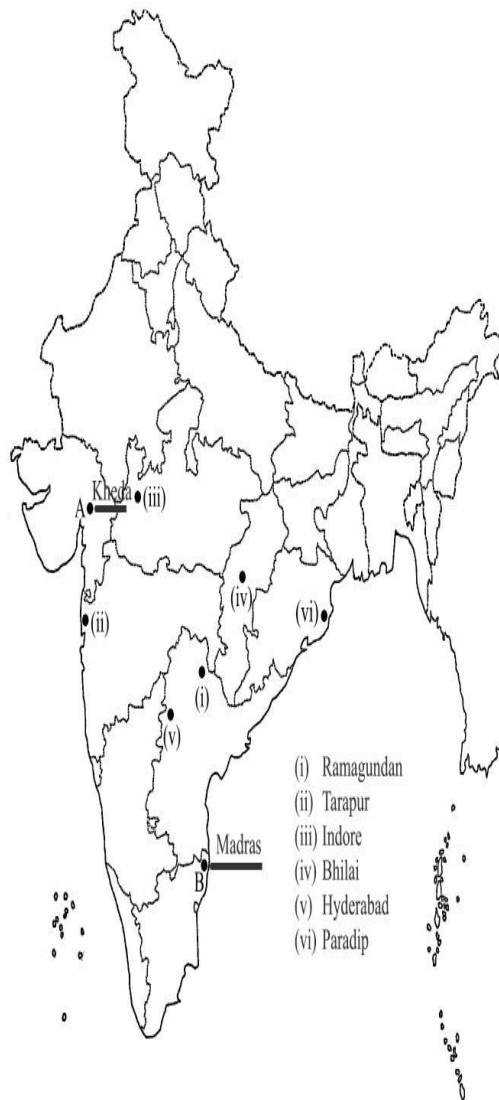

[2]

- (A) A place marked by a where the satyagraha movement of former took place.
- (B) The place where Indian congress session was held in 1927.
- (b) On the same outline map of India locate and label any four of the following with suitable symbol [4]
 - (i) Ramagundan-Thermal power plant
 - (ii) Tarapur-Atomic power plant
 - (iii) Indore-Cotton textile Industry center
 - (iv) Bhilai-Iron and steel plant
 - (v) Hyderabad-Software technology park
 - (vi) Paradip-Major sea port

Ans :

(a) & (b)

CLASS X (2019-20)
SOCIAL SCIENCE (CODE 087)
SAMPLE PAPER-4

Time Allowed : 3 Hours

Maximum Marks : 80

General Instructions :

- (i) The question paper has 35 questions in all.
- (ii) Marks are indicated against each question.
- (iii) Questions from serial number 1 to 20 are objective type questions. Each question carries **one mark**. Answer them as instructed.
- (iv) Questions from serial number 21 to 28 are **3 marks** questions. Answer of these questions should not exceed **80 words** each.
- (v) Questions from serial number 29 to 34 are **5 marks** questions. Answer of these questions should not exceed **120 words** each.
- (vi) Question number 35 is a map question of **6 marks** with two parts-**35 a.** from History (2 marks) and **35 b.** from Geography (4 marks).

Section A

1. Match the following items given in column A with those in column B. [1]

Column A		Column B	
(A)	Great depression	(1)	IMF and World Bank
(B)	Hosay	(2)	Punjab
(C)	Bretton Wood Institution	(3)	Riotous carnival
(D)	Canal colonies	(4)	Agricultural overproduction

Ans : A -4 , B -3 , C -1 , D-2

2. Which body conducts the elections to panchayat and municipalities ? [1]
- (a) Election Commission of India
 - (b) State Election Commission
 - (c) State High Court
 - (d) Parliament

Ans : (b) State Election Commission

3.

The significance of above image is. [1]

- (a) Revenge and Vengeance
 - (b) Heroism and Justice
 - (c) Liability and Justice
 - (d) Justice and Revenge
- Ans :** (b) Heroism and Justice

4. What is globalisation ? [1]

Ans :

It is the process of rapid integration or interconnection between countries.

5. In which sector the government owns most of the assets and provides all the services ? [1]
- (a) Joint sector
 - (b) Private sector

(c) Cooperative sector (d) Public sector **Ans :** (d) Public sector

6. Complete the following table with the correct information regarding the type of iron ore and coal.

T y p e of Iron Ore	Magnetite	A-?	Limonight	Siderite
T y p e of Coal	Anthracite	Bituminous	B-?	Peat

Ans :

A-Hematite

B-Lignite

7. Do you think that resources are free gifts of nature as is assumed by many? Suggest any one argument. [1] **Ans :**

Resources are not free gifts of nature as : Resources are a function of human activities. **or**

“Planning is widely accepted strategy for judicious use of resources in a country like India.” Justify this statement with one relevant point. **Ans :**

An equitable distribution of resources has become essential for a sustained quality of life and global peace.

8. Correct the following statement and rewrite. Democracy is based on the principle of the cast ism equality. [1]

Ans : Democracy is based on the principle of the **political** equality.

or

All the suggestions or proposals about overcoming various challenges to democracy are called democratic forms.

Ans : All the suggestions or proposals about overcoming various challenges to democracy are called democratic **reforms**.

Ans : (d) The Act controlled the movement of plantation workers

14. Although, over minerals have been identified, only a few are abundantly found in most of the rocks. [1]

Ans : 2000

15. Your uncle works in a telephone and computer manufacturing factory. Which type of industry is it? [1]

- (a) Iron and Steel
 - (b) Electronics
 - (c) Aluminium
 - (d) Information Technology
- Ans :** (b) Electronics

16. is basically trade between two different countries of the word. [1]

Ans : Foreign Trade

or

..... is a monetary measure of the market value of all final goods and services produced in a period. **Ans :** GDP (Gross Domestic Product)

17. Which of the following is considered to be an environmental friendly fuel ? [1]

- (a) Coal (b) Petroleum
(c) Natural gas (d) Uranium

Ans : (c) Natural gas

18. Arrange the following state according to the percent share of rice to all India.

1. Punjab
2. West Bengal
3. Uttar Pradesh
4. Rajasthan

- (a) 2, 3, 1, 4 (b) 1, 2, 3, 4
(c) 4, 3, 2, 1 (d) 4, 3, 1, 2

Ans : (a) 2, 3, 1, 4

19. In the question given below, there are two statements marked as Assertion (A) and Reason (R). Read the statements and choose the correct option: [1] **Assertion (A)** : Equal Remuneration Act, 1976, provides that equal wages should be paid for equal work, irrespective of gender and caste.

Reason (B) : Women are physically weak so they are righteously paid less than men.

- (a) Both assertion and reason are true, and reason is the correct explanation of assertion.
(b) Both assertion and reason are true, but reason is not the correct explanation of assertion.
(c) Assertion is true, but reason is false. (d) Both assertion and reason are false.

Ans : (c) Assertion is true but reason is false.

20. A study in Ahmedabad found that out of 15,00,000 workers in the city, 11,00,000 worked in the unorganised sector. The total income of the city in this year (1997-1998) was `60,000 million. Out of this `32,000 million was generated in the organised section. The number of workers in organised sector is [1] (a) 4,00,000 (b) 5,00,000
(c) 10,00,000 (d) 39,000

Ans : (a) 4,00,000

Section B

21. Explain the idea of Satyagraha. [3]

Ans :

Gandhiji said 'Satyagraha' was not passive resistance but it called for intensive activity. Physical force was not used against the oppressor, nor vengeance was sought. Only through the power of truth and nonviolence, an appeal was made to the conscience of the oppressor. Persuasion, not force, would make the oppressor realise the truth. This 'dharma' of nonviolence and truth united people against the oppressor and made them realise the truth. **or**

Explain the immediate effects of the Lahore session of Indian National Congress of December 1929. [3] **Ans :**

The Lahore Session of Indian National Congress of December 1929 was held under the presidency of Pt. J.L. Nehru. The session formalised the demand of 'Purna Swaraj' or full independence for India. It was decided that the day of 26 January, 1930 would be celebrated as the Day of Independence. But the decision of Lahore Session was unable to attract good attention. By taking the idea from this Purna Swaraj agenda Gandhiji planned 'Dandi March' (to break salt the law) as the initial step for Civil Disobedience.

22. Why are democracies unable to reduce economic inequalities ? Explain. [3]

Ans :

Democracies are based on political equality. All individuals have equal right in electing representatives. Parallel to the process of bringing individuals into the political arena on an equal footing, there are growing economic inequalities. A few of the rich enjoy a highly disproportionate share of wealth and incomes. Not only that, their share in the total income of the country has been increasing. Those at the bottom of the society have very little to depend upon. Their incomes have been declining and sometimes they find it difficult to meet their basic needs of life such as food, clothing, house, education and health.

or

What is the function of the Opposition party ? [3] **Ans :**

Opposition party is a party which does not win elections in sufficient numbers to form a government. But it keeps an eye on the working of the ruling party and acts as a check on their activities. It prevents the ruling party from misusing its powers. It keeps a check on their expenditures, brings their failure before the public. It also protects the rights and liberties of the people by not allowing any law to be passed which threatens their fundamental rights.

23. Read the source below and answer the question that follows

SOURCE-A

'Satyagraha is not physical force. A satyagrahi does not inflict pain on the adversary; he does not seek his destruction ... In the use of satyagraha, there is no ill-will whatever.'

Satyagraha is pure soul-force. Truth is the very substance of the soul. That is why this force is called satyagraha. The soul is informed with knowledge. In it burns the flame of love ... Non-violence is the supreme dharma...

'It is certain that India can not rival Britain or Europe in force of arms. The British worship the wargod and they can all of them become, as they are becoming, bearers of arms. The hundreds of millions in India can never carry arms. They have made the religion of non-violence their own.

SOURCE-B

'It is said to 'passive resistance' that it is the weapon of the weak, but the power which is the subject of this article can be used only by the strong. This power is not passive

resistance; indeed it calls for intense activity. The movement in South Africa was not passive but active..."

SOURCE-C

'I have no hesitation in declaring that if the principle that the Indian Muslims is entitled to full and free development on the lines of his own culture and tradition in his own Indian homelands is recognised as the basis of a permanent communal settlement, he will be ready to stake his all for the freedom of India. The principle that each group is entitled to free development on its own lines is not inspired by any feeling of narrow communalism ... A community which is inspired by feelings of ill-will towards other communities is low and ignoble. I entertain the highest respect for the customs, laws, religions and social institutions of other communities. Nay, it is my duty according to the teachings of the Quaran, even to defend their places of worship, if need be. Yet I love the communal group which is the source of life and behaviour and which has formed me what I am by giving me its religion, its literature, its thought, its culture and thereby its whole past as a living operative factor in my present consciousness.

SOURCE-A

23 (1) What do the British worship? [1]

Ans : The British worship the war-god, as they are becoming bearers of arms.

SOURCE-B

23 (2) Which passive resistance is the author talking about? [1]

Ans : Satyagraha

SOURCE-C

23 (3) What does Quran say about the places of worship of other communities? [1]

Ans : Quran says that the places of worship of other communities need to be defended.

24. "Industrialization and urbanisation go hand in hand."

Validate the statement. [3]

Ans :

After an industrial activity starts in a town, urbanisation follows. Industry provides employment to the people of the area. Population migrates from rural hinterlands to seek jobs. Housing and transport facilities are developed to accommodate these people. Other infrastructural developments take place leading to growth and development of the town into a city.

Sometimes, industries are located in or near the cities. Cities provide markets and services such as banking, insurance, transport, labour, consultants and financial advice, etc. to the industry.

Thus, industrialisation and urbanisation go hand in hand. **or**

"Agriculture and industry are complimentary to each other." Support the statement with three examples. **Ans :** Agriculture and industry both depend on each other

1. Agriculture supplies raw material for the manufacturing industries. Shortage of these raw materials can spell doom for the industry.
2. Agriculture gets its basic inputs from the manufacturing industries.
3. In this way agriculture offers a big market for industrial products, fertilizers, water pumps, tractors, farm equipment etc.
4. In short, agriculture and industry are not exclusive of each other they move hand in hand.

25. State the importance of petroleum as an energy resource. Mention any four oil fields of India. [3] **Ans :**

Petroleum is the next major energy source in India after coal. Petroleum provides fuel for heat and lighting, lubricants for machinery and raw materials for number of manufacturing industries — synthetic textiles, fertiliser and numerous chemical industries. i. Mumbai High. ii. Ankeleshwar, Gujarat. iii. Digboi, Assam. iv. Bassien, Arabian Sea.

26. What is meant by national parties? State the criteria for recognising a party as national and state party. [3] **Ans :**

Political parties in India are recognised as 'National' or 'State' party by the Election Commission of India. There are some countrywide parties which are called 'national parties'. These parties have their units in various states. But by and large all these units follow the same policies, programmes and strategy that is decided at the national level.

A party that secures at least six percent of total votes in Lok Sabha elections or Assembly elections in four states and wins at least 4 seats in the Lok Sabha is recognised as a national party.

A party that secures at least 6 per cent of the total votes in an election to the Legislative Assembly of a state and wins at least two seats is recognised as a state party.

27. Distinguish between an integrated steel plant and a mini steel plant stating three points of distinction. [3] **Ans :**

- i. An integrated steel plant is larger than a mini steel plant.
- ii. Mini steel plants use steel scrap and sponge iron while integrated steel plant use basic raw materials, i.e. iron ore for making steel.
- iii. Mini steel plant produces mild and alloy steel while integrated steel plant produces only steel. **or**

"Mineral resources in India are unevenly distributed." Support the statement with three suitable examples. [3]

Ans :

- i. Peninsular rocks contain most of the reserves of coal, metallic minerals, mica and many other nonmetallic minerals.
- ii. Sedimentary rocks on the western and eastern flanks of the peninsula in Gujarat and Assam have most of the petroleum deposits.

- iii. The vast alluvial plains of North India are almost devoid of minerals. These variations exist largely due to differences in the geological structure processes and time involved in the formation of minerals.

28. What are the objectives of social development? [3] **Ans :**

Following are the objectives of social development.

- i. **Economic Equality :** Social development seeks to bring economic equality to the poor sections of the society. It requires to raise the standard of living of the people living below poverty line.
- ii. **Social Justice :** The underprivileged section of society should get equal right for carrying on any job. They should also get justice and legal aid for any injustice met.
- iii. **Health and Education :** It should be ensured that the lower section of the society gets proper health and education facilities so that they can compete with other people living in society.
- iv. **Cultural Equality :** There should not be discrimination between people on the basis of regional identity, caste, religion, social status etc.

Section C

29. How is culture a great agent of globalisation ? Explain with example. [5]

Ans :

Trade and cultural exchange went hand in hand. Religion was perhaps one of the most important commodities carried along the Silk Route. Buddhism reached China from India along the northern branch of the route. The Karakoram passes were used as a means by the missionaries to explore the faiths and scriptures.

Art, literature and philosophical ideas were exchanged and in the process, it affected the cultures of different countries to which the route branched out. Even Christian missionaries travelled along the Silk Route to Asia, followed by Muslim preachers a few centuries later. The long rule of British in India also left an indelible western influence in different ways. **or**

Describe the nexus between merchants and cotton textile producers in proto-industry. [5]

Ans :

In the proto-industrial stage, cotton textile was produced in the following ways :

- i. Merchant clothier bought wool from stapler, the person who sorted wool according to its fibres
- ii. Then, he took the wool to spinners to produce spun yarns.
- iii. Yarn (threads) were finally given to the weavers for weaving and the fullers who gathered cloths by pleating and finally sent to dyers for colouring.

As a result, a close relationship between town and countryside developed in which a network of commercial exchange existed between merchants and farmers.

30. Read the following extract taken from the textbook and answer the questions that follows:

'It is indeed ridiculous and unreasonable to deny women political rights even though they enjoy the right to property which they make use of. They perform functions and assume responsibilities without however getting the benefits that accrue to men for the same ... Why this injustice ? Is it not a disgrace that even the stupidest cattle-herder possesses the right to vote, simply because he is a man, whereas highly talented women owning considerable property are excluded from this right, even though they contribute so much to the maintenance of the state? (i) Who is the writer of the above passage? **Ans :** The writer is an anonymous reader of the journal 'feminist'.

(ii) What is the grudge (complaint) of the writer?

Ans : The writer grudges that women perform functions and assume responsibilities without getting the benefits that accrue to men for the same.

(iii) What example does the writer cite in support of her view point?

Ans : The writer argues that it is a disgrace that even the stupidest cattle herder possesses the right to vote whereas highly talented women owning considerable property are excluded from this right.

31. How can religion influence politics ? [5]

Ans :

- i. Gandhiji believed that politics must be guided by ethics drawn from all religions.
- ii. Ideas, ideals and values drawn from different religions can play a role in politics. These can have a good moral effect on politics.
- iii. People should have the freedom to express in politics their needs, interest and demands as a member of a religious community.
- iv. People who hold political power should see that discrimination and oppression do not take place due to religion.
- v. Religious sentiments should not be exploited for electoral gains.

32. Give a few examples of public sector activities and explain the role of government in this sector. [5] **Ans :**

Construction of roads, bridges, railways, harbours, generating electricity, providing irrigation through dams, building hospitals, dispensaries, schools, colleges etc. are a few examples of public sector activities.

Government has taken up these activities because these are basic facilities and require a huge amount of investment which is beyond the capacity of the private sector. Several things are needed by the society as a whole which the private sector will not provide at a reasonable cost. Even if they do provide these things, they would charge a high rate for their use.

Let us further understand this with the help of an example. Selling electricity at a price which covers the full cost of generation may push up the cost of production in industries. Many units, specially small scale units, might have to shut down. Government here steps in by producing

and supplying electricity at rates which these industries can afford. So the government has to bear a part of the cost.

and running water. Rows of such trees are called shelter belts.

33. Distinguish between Intensive Subsistence Farming and Commercial Farming. [5]

Ans :

	Intensive Subsistence Farming	Commercial Farming
1.	This type of farming is practised in area of high population pressure on land.	This type of farming is practised in area of low population density.
2.	Farmer and his family produce mainly cereal crops for subsistence of the family and for local market.	Cash crops are grown on a large scale for commercial purposes, and for export to other countries.
3.	It is a labour-intensive agriculture.	It is capital-intensive, requiring high application of modern inputs.
	Intensive Subsistence Farming	Commercial Farming
4.	Farm sizes are small and uneconomical due to fragmentation of landholding on account of 'right of inheritance'.	Farm sizes are large, allowing for use of modern machineries and for large scale production.
5.	Farmers try to take maximum output from the limited land in absence of alternative source of livelihood.	Farmers earn huge profit in commercial agriculture from sale of crops.

or

What is soil erosion? Suggest measures to stop soil erosion. [5]

Ans :

The denudation of the soil cover and the subsequent washing down is described as soil erosion.

Steps to stop soil erosion:

- i. **Contour ploughing** : Ploughing along the contour lines can decelerate the flow of water down the slopes.
- ii. **Terrace cultivation** : Steps can be cut out on the slopes making terraces. Terrace cultivation restricts erosion.
- iii. **Strip cropping** : Large fields can be divided into strips. Strips of grass are left to grow between crops. This breaks up the force of the wind.
- iv. **Creating shelter belts** : Planting lines of trees to create shelter also stops soil erosion by checking force of wind

34. Explain the significance of the Tertiary sector. [5] Ans :

Tertiary sector generates services rather than goods, therefore, it is also called service sector. Some examples of tertiary sector activities are transport, storage, communication, banking, trade etc. These activities, by themselves, do not produce a good but they are an aid or a support for the production process.

This sector also includes the services of teachers, doctors, barbers, lawyers, dry-cleaners etc. In recent times, certain new services based on information technology such as internet cafe, ATM booths, call centres, software companies etc. have become important.

This sector includes the services that help in the development of primary and secondary sectors. For example, goods that are produced in the primary and secondary sectors would need to be transported by trucks or trains and then these are sold at wholesale and retail shops. At times, it may be necessary to store these in go-downs. Similarly, we may need to avail the transport services to go from one place to another or borrow money from banks to help production and trade. Thus, we can say that the tertiary sector supports the other two sectors.

the Fear of Print**

3 Source A-Religious Debates and

Print created the possibility of wide circulation of ideas, and introduced a new world of debate and discussion. Even those who disagreed with established authorities could now print and circulate their ideas. Through the printed message, they could persuade people to think differently, and move them to action. This had significance in different spheres of life.

Source B-The Reading Mania

The ideas of scientists and philosophers now became more accessible to the common people. Ancient and medieval scientific texts were compiled and published, and maps and scientific diagrams were widely printed. When scientists like Isaac Newton began to publish their discoveries, they could influence a much wider circle of scientifically minded readers. The writings of thinkers such as Thomas Paine, Voltaire and Jean Jacques Rousseau were also widely printed and read. Thus their ideas about science, reason and rationality found their way into popular literature.

Source C --- Print Culture and the French Revolution

Print popularised the ideas of the Enlightenment thinkers. Collectively, their writings provided a critical commentary on tradition, superstition and despotism. They argued for the rule of reason rather than custom, and demanded that everything be judged through the application of reason and rationality. They attacked the sacred authority of the Church and the despotic power of the state, thus eroding the legitimacy of a social order based on tradition. The writings of Voltaire and Rousseau were read widely; and those who read these books saw the world through new eyes, eyes that were questioning, critical and rational.

21. What was the cause of disagreement between the Congress-led Non-Cooperation Movement and the Peasants' and Workers' Movements? [3]

Ans :

The Congress under Gandhiji believed in achieving 'Swaraj' by peaceful means and total non-violence. He believed in Satyagraha, truth and non-violence. He believed in non-cooperation with British regime.

The peasants and workers, though believed in Gandhi's Swaraj, khadi and boycott, did not always believe in non-violence. They sometimes turned violent to achieve their aims, which went against the Congress creed. The violence at Chauri-Chaura led to suspension of the Non-Cooperation movement. The peasants in Awadh also indulged in violence against landlords and taluqdars. **or**

What was Rowlatt Act ? How did the Indians show their disapproval towards this Act.? [3]

Ans :

During Indian struggle for Independence British government passed a law named after Sidney Rowlatt who was a government official. This was the Rowlatt Act. Three officers in the commission were all British. Indian freedom fighters called it "Black Law". This Act gave the government enormous powers to repress political activities

and allowed detention of political prisoners without trial for two years.

The opposition against this law started with a call for strike by Gandhi. March and April 1919 witnessed a remarkable political awakening in India. Rallies were organised in many cities, workers stopped working, went on strike. Shops and workshops were closed.

22. What are renewable resources ? Why has it become necessary to use renewable energy resources ? [3] **Ans :**

The resources which can be renewed or reproduced by physical, chemical or mechanical processes are known as renewable resources.

Dependence on fossil fuels ie, coal, oil and gas and rising prices of oil and gas and their potential shortages have raised uncertainties about security of energy supply in future, which affect the growth of national economy. Besides, the use of fossil fuels also causes serious environmental problems. Hence, there is a need for use of renewable energy resources. **or**

Describe the three cropping seasons in India. [3] **Ans :**

India has three cropping seasons — rabi, kharif and zaid. Rabi crops are sown in winter from October to December and harvested in summer from April to June. Some major rabi crops are — wheat, barley, peas, gram and mustard.

Kharif crops are grown with the onset of monsoons and harvested in September to October. Important kharif crops are paddy, maize, jowar, bajra, cotton, jute, groundnut, etc.

In between rabi and kharif seasons, there is a short season during summer, called zaid season. Some major crops grown during zaid are — watermelon, muskmelon, cucumber, vegetables and fodder crops.

23. Read the sources given below and answer the questions that follows

SOURCE-A

‘To what corner of the world do they not fly, these swarms of new books? It may be that one here and there contributes something worth knowing, but the very multitude of them is hurtful to scholarship, because it creates a glut, and even in good things satiety is most harmful... [Printers] fill the world with books, not just trifling things (such as I write, perhaps), but stupid, ignorant, slanderous, scandalous, raving, irreligious and seditious books, and the number of them is such that even the valuable publications lose their value.

SOURCE-B

‘The task of the native newspapers and political associations is identical to the role of the Opposition in the House of Commons in Parliament in England. That is of critically examining government policy to suggest improvements, by removing those parts that will not be to the benefit of the people, and also by ensuring speedy implementation.

These associations ought to carefully study the particular issues, gather diverse relevant information on the

nation as well as on what are the possible and desirable improvements, and this will surely earn it considerable influence.’

SOURCE-C

‘In 1926, Begum Rokeya Sakhawat Hossein, a noted educationist and literary figure, strongly condemned men for withholding education from women in the name of religion as she addressed the Bengal Women’s Education Conference:

‘The opponents of female education say that women will become unruly ... Fie! They call themselves Muslims and yet go against the basic tenet of Islam which gives Women an equal right to education. If men are not led astray once educated, why should women?’

SOURCE-A

23 (1) What opinion does the writer hold about most of the books? [1]

Ans : The author is critical of swarm of new books that were glutting the market because of the print revolution. He terms most of these books as harmful, slanderous, scandalous, raving, irreligious and seditious.

SOURCE-B

23 (2) What is the role of the native newspapers and political associations in democracy? [1] **Ans :** In a democracy, the task of native newspapers and political associations is identical to the role of the opposition in the House of Commons in Parliament in England.

SOURCE-C

23 (3) Why did Rokeya Sakhawat Hossein condemn men? [1]

Ans : She condemned men for withholding education from women in the name of religion.

24. ‘India has land under a variety of relief features’. Support the statement with three arguments. [3] **Ans :**

The name of these relief features are mountains, plateaus, plains and islands.

- i. About 43 percent of the land area is plain which provides facilities for agricultural and industrial activities.
- ii. Mountains account for 30 percent of the total surface area of the country and ensure perennial flow of some rivers. They also provide facilities for tourism and ecological aspects.
- iii. About 27 percent of the area of the country is the plateau region. It possesses rich reserves of minerals, fossil fuels and forests. **or**

Why is resource planning so important in a country like India? Give reasons. **Ans :**

- i. India has enormous diversity in the availability of resources. There are regions which are rich in certain types of resources but are deficient in some other resources.
- ii. There are some regions which can be considered self-sufficient in terms of the availability of resources and

there are some regions which have acute shortage of some vital resources.

- iii. The states of Jharkhand, Chhattisgarh and Madhya Pradesh are rich in minerals and coal deposits. Arunachal Pradesh has no dearth of water resources but lacks in infrastructural development. The state of Rajasthan is gifted with solar and wind energy but lacks in water resources. Ladakh has rich cultural heritage but it is deficient in water, infrastructure etc. This calls for balanced resource planning at the national, state, regional and local levels.

25. Bring out any three arguments in support of democracy as a better form of government as compared to dictatorship. [3]

Ans :

- i. Democratic government is legitimate government. It may be slow, less efficient, not always very responsive or clean but a democratic government is people's own government. This is not true in case of dictatorship.
- ii. In a democratic government citizens enjoy fundamental rights but in dictatorship it is not so.
- iii. In a democratic form of government, the decision making process is slow. But it follows the procedures and its decisions are more acceptable to the people. This is not seen in the dictatorship type of government, where decisions might be forced on the people.

26. What do you know about MGNREGA ? [3]

Ans :

The Union government made a law in 2005 implementing the right to work in 625 districts of India. It is called Mahatma Gandhi National Rural Employment Guarantee Act 2005 (MGNREGA 2005). Under this, all those who are able to, and are in need of work in villages are guaranteed 100 days of employment per year. If the government fails in its duty to provide employment, it will give unemployment allowances to the people.

27. Political parties are rightly called the government in disguise. Justify the statement in reference to democratic politics by giving three arguments. [3] **Ans :**

- i. Parties contest elections. In most democracies elections are fought mainly among the candidates put up by political parties.
- ii. A party reduces a vast multitude of opinions into a few basic positions which it supports. A government is expected to base its policies on the line taken by the ruling party.
- iii. Parties play a decisive role in making laws for a country. Most of the members of a legislature belong to a party and they go by the direction of the party leadership. **or**

Are political parties no longer popular ? Discuss with examples. **Ans :**

It is believed that in most of the countries in the world, political parties are no longer popular. People have lost their trust in them and become indifferent towards them. According to a recent survey in South Asia, majority says that they do not at all trust the parties. A number of people belong to the "Not much" category. In India, there is growing indifference towards parties. They have failed to reduce poverty, prices and this has led to indifference and unpopularity. In the rest of the world, which contains many democracies, political parties are one of the least trusted institutions. But there is another side of the story. Strangely enough, participation and membership of the parties has increased in great numbers. In India, it is higher than many advanced countries like Canada, Japan, Spain and South Korea. Party membership is higher in South Asia than the rest of the world.

28. Explain the role of women in the nationalist struggles of Europe. [3]

Ans :

The issue of extending political rights to women was a controversial one within the liberal movement, in which large number of women had participated actively over the years. Women had formed their own political associations, founded newspapers and taken part in political meetings and demonstrations. Despite this, they were denied suffrage during the elections to the Assembly. When the Frankfurt Parliament was convened in the Church of St. Paul, women were admitted only as observers to stand in the visitors' gallery.

Section C

29. The workers in the unorganised sector need protection on the following issues: wages, safety and health.

Explain with examples. [5]

Ans :

In unorganised sectors workers are exploited by the private individuals because their aim is to earn more profit. They are not concerned with the safety and health of the employees. They also pay low wages to increase their profits. In such a type of organisation working conditions are not good. So the protection of their rights is necessary. They can take the help of labour laws and courts. Outdated and obsolete machines installed in factories play havoc with health of workers. These need up-gradation. Government should make laws and strictly implement them for benefit of workers. **or**

Why are transactions made in money ? Explain with suitable examples ? **Ans :**

Money is accepted as a medium of exchange because the currency is authorised by the government of India. In money transactions, money can be paid for any goods or services one desires. For example : the producer of shoes may want wheat in exchange for his shoes. But he may find it difficult to find a person who is also willing to exchange

his wheat for shoes. So simultaneous fulfilment of mutual wants is the first and foremost condition to buy and sell the commodity. In money transaction one can buy a commodity whenever one wants it. One does not have to wait for another person to agree to an exchange of goods.

- 30.** Read the following extract taken from the textbook and answer the questions that follows: [5] ‘I had always wanted to go to London, and my desire ... was stimulated by letters from an old workmate ... who was now working at the Old Kent Road Gas Works ... I finally decided to go... in November, 1981. With two friends I started out to walk the journey, filled with the hope that we would be able to obtain employment, when we get there, with the kind assistance of my friend ... we had little money when we started, not enough to pay for our food and lodgings each night until we arrived in London. Some days we walked as much as twenty miles, and other days less. Our money was gone at the end of the third day... For two nights we slept out... once under a haystack, and once in an old farm shed... On arrival in London we tried to find ... my friend ... but ... were unsuccessful. Our money was gone, so there was nothing for us to do but to walk around until late at night, and then try to find some place to sleep. We found an old building and slept in it that night. The next day, Sunday, late in the afternoon, we got to the Old Kent Gas Works, and applied for work. To my great surprise, the man we had been looking for was working, at the time. He spoke to the foreman and I was given a job’. (i) Give the source of the above passage. **Ans :**

This passage has been taken from the book ‘The Victorian City Images and Realities–1973. It appeared in Raphael Samuel, ‘Comers and Goers’, in H.J. Dyos and Micheal Wolff.

(ii) What prompted the narrator to go to London? **Ans :**

The narrator was prompted by a letter, from an old workmate who was now working at the Old Kent Road Gas Works, to go to London in search of a job. (iii) How did he succeed in getting the job? **Ans :**

Per chance, he encountered the old workmate in the Old Kent Gas Works and got a job with his help.

- 31.** Mention some of the suggestions made to reform political parties. [5]

Ans :

- Laws could be made to regulate internal politics of parties.
- It should be compulsory to maintain a register of its members, hold independent inquiry in case of a party dispute and hold open elections to top party posts.
- It should be mandatory to give 1/3 party tickets to women candidates. There should be a quota for women in decision making bodies.
- The government or the state should help parties during elections by funding them. Expenses for petrol, paper, telephone etc. can be given. Cash can be given on the basis of votes secured by the party in the last elections.

v. It should be mandatory to hold regular and periodic organisational elections.

- 32.** Why is the tertiary sector becoming more important than other sectors in India ? Give four reasons. [5] **Ans :**

Tertiary sector has become important in India due to

- Basic services like hospitals, education, post and telegraph, courts etc. are the responsibility of the government.
- Demand for services such as transport, trade, storage has increased with the development of primary and secondary sectors.
- Demand for tourism, shopping, private schools, private hospitals etc. increased with the increase in the level of income.
- Rapid growth of service sector also benefited from external demand such as software industry and call centre services.

- 33.** Explain major human activities that are mainly responsible for land degradation in India. [5] **Ans :**

Use of land over a prolonged period without taking necessary steps to conserve and manage it has resulted in land degradation. The major human activities responsible for land degradation in India are as follows:

- In states like Jharkhand, Chhattisgarh, Madhya Pradesh and Odisha deforestation due to mining have caused severe land degradation. Mining sites are dug, drilled or quarried and abandoned leaving the land overburdened and in a highly degraded state.
- Mineral processing like grinding of limestone for cement industry and calcite and soapstone for ceramic industry generate huge quantity of mineral dust in the atmosphere, which ultimately settles down on the land. It retards the process of infiltration of water into the soil, thus, degrading the land.
- Discharge of industrial effluents and wastes cause pollution and land degradation in industrial regions.
- In states like Gujarat, Rajasthan, Madhya Pradesh and Maharashtra overgrazing is one of the main reasons for land degradation.
- In Punjab, Haryana and western Uttar Pradesh over irrigation is responsible for land degradation. It leads to water logging which in turn increases salinity and alkalinity in the soil and reduces its fertility.

or

What is the ideal location for sugar mills ? Why is this industry ideally suited to the cooperative sector ? **Ans :**

Sugarcane, the raw material used in sugar industry, is bulky, and its sugar content reduces in haulage and time lag between reaping and sugar production. Therefore, the ideal location for sugar mills is in close proximity of sugarcane producing areas. The sugar industry is seasonal in nature and so is ideally suited to the cooperative sector. For entire year the farmers are engaged in producing sugarcane as it is an annual crop. When the crop is reaped, the farmers pool together their resources, set up mills within the sugarcane producing areas and produce sugar. The seasonal nature of

the sugar industry is combated by setting up cooperative societies where farmers share the profits and losses.

34. Trace the origin of Silk Route and describe its significance. [5]

Ans :

The Silk Route is one of the world’s oldest and historically most important trade route which affected the cultures of China, Central Asia and the West. It had many branches leading to different regions, including ancient India. It played an important role as a means of pre-modern trade and cultural exchange between different regions.

The Romans learned about the Silk Route from the Parthians around 53 B.C.E. They used the word “Serer” or the silk people to refer to the Chinese. The modern word “Silk Route” was coined by a German scholar, Von Richthofen, in the nineteenth century. Silk was considered the most precious by the Romans even though it was only one of the many commodities that was traded between China and the world through this route.

21. What is Holding Together Federation? Give examples of ‘holding together federations’. 3

or

“Gender division is not based on biology but on social expectations and stereotypes.” Support the statement. **Ans :**

Holding Together is where a large country decides to divide its power between the constituent States and the national government. In this category, the central government tends to be more powerful vis-à-vis the States. Very often different constituent units of the federation have unequal powers. Examples: India, Spain and Belgium. **or**

- (i) Gender division is a form of hierarchical social division based on social expectation and stereotypes.
- (ii) Boys and girls are brought up to believe that the main responsibility of women is house work and bringing up children.
- (iii) There is a sexual division of labour in most families where women do all the household chores and men work outside the home.

What is proto-industrialisation? “In the seventeenth and eighteenth centuries, merchants from the towns in Europe began moving to the countryside”. Explain any two reasons. **Ans :**

- (i) The conquest by European powers like Spain and Portugal were not just a result of superior firepower or conventional military weapons.
- (ii) It was the germs such as those of smallpox that they carried on their person. Because of their long isolation, America’s original inhabitants had no immunity against these diseases that came from Europe. Smallpox in particular proved a deadly killer.
- (iii) Once introduced, it spread deep into the continent, ahead even of any Europeans reaching there. It killed and decimated whole communities, paving the way for conquest. **or**

Even before factories began to dot the landscape in England and Europe, there was large-scale industrial production for an international market. This was not based on factories. Many historians now refer to this phase of industrialisation as proto-industrialisation.

Two Reasons:

- (i) In the seventeenth and eighteenth centuries, merchants from the towns in Europe began moving to the countryside, supplying money to peasants and artisans, persuading them to produce for an international market.
- (ii) With the expansion of world trade and the acquisition of colonies in different parts of the world, the demand for goods began growing.

23. Read the sources given below and answer the questions that follows: 1+1+1=3

Source A : Where did the workers come from? In most industrial regions workers came from the districts around. Peasants and artisans who found no work in the village went to the industrial centres in search of work. Over 50 per cent workers in the Bombay cotton industries in 1911 came from the neighbouring district of Ratnagiri, while the mills of Kanpur got most of their textile hands from the villages within the district of Kanpur. Most often mill workers moved between the village and the city, returning to their village homes during harvests and festivals.

Source B : Dominated industrial production in India

European Managing Agencies, which dominated industrial production in India, were interested in certain kinds of products. They established tea and coffee plantations, acquiring land at cheap rates from the colonial government; and they invested in mining, indigo and jute. Most of these were products required primarily for export trade and not for sale in India.

Source C : Industries shifted from Yarn to cloth production

From 1906, moreover, the export of Indian yarn to China declined since produce from Chinese and Japanese mills flooded the Chinese market. So industrialists in India began shifting from yarn to cloth production. Cotton piece-goods production in India doubled between 1900 and 1912.

Source A : Where did the workers come from?

23 (1) Where did the workers come in cotton mills in India during 1900s?

Ans : The workers came from the districts around. Over 50% workers in Bombay cotton industries in 1911, came from the neighbouring district of Ratnagiri, while the mills of Kanpur got most of their textile hands from the villages of Kanpur district.

Source B : Dominated industrial production in India

23 (2) What helped the European Managing Agencies to dominate the Indian markets?

Ans : The European Managing Agencies established tea and coffee plantations, acquiring land at cheap rates from the colonial government and they invested in mining, indigo and jute. Through this activities they dominated the Indian markets.

Source C : Industries shifted from Yarn to cloth production

23 (3) Why did industrialists shift from yarn to cloth production?

Ans : From 1906, the export of Indian yarn to China declined since produce from Chinese and Japanese mills flooded the Chinese market. So industrialists in India began shifting from yarn to cloth productions.

24. Define the term resource. Do you think resources are free gift of nature? 3

or

Explain how water becomes a renewable resource. **Ans :**

Everything available in our environment which can be used to satisfy our needs, provided it is technologically accessible, economically feasible and culturally acceptable can be termed as 'Resource'.

31. Explain any five major challenges being faced by the Indian democracy. 5

or

Explain different types of challenges being faced by democratic governments in modern times. **Ans :**

Major challenges are:

- (i) Foundational challenge (ii) Challenge of expansion
- (iii) Challenge of deepening of democracy.

The main challenge to democracy in India is the challenge of expansion. Decentralisation of powers and applying the basic principle of democratic government across all the regions, have been developed; but still more is to be done. Inclusion of women and minority groups is still a challenge. All the decisions should be in the arena of democratic control. To get this thing to be done is a big challenge. Some other challenges to democracy include:

- (i) Constitutional design

- (ii) Federalism and its functions
- (iii) Elections (iv) Democratic rights **or**
- (i) Foundational challenge takes place when the basic structure or foundation of the government changes. It involves: bringing down the existing non-democratic regime, keeping military away from controlling government, establishing a sovereign and functional state. E.g. India, Nepal, Iraq, Pakistan.
- (ii) Challenge of Expansion: This involves:
 - (a) Applying the basic principle of democratic government across all the regions and different social groups and various institutions.
 - (b) Ensuring greater power to local governments.
- (iii) Deepening of democracy involves strengthening of the institutions and practices of democracy in such a way that people can realise their expectations of democracy. E.g. Belgium, Bolivia, India, US, etc.

32. Read the extract and answer the questions that follow: 5 The English language press did not grow in India till quite late even though the English East India Company began to import presses from the late seventeenth century.

From 1780, James Augustus Hickey began to edit the Bengal Gazette, a weekly magazine that described itself as ‘a commercial paper open to all, but influenced by none’. So it was private English enterprise, proud of its independence from colonial influence, that began English printing in India. Hickey published a lot of advertisements, including those that related to the import and sale of slaves. But he also published a lot of gossip about the Company’s senior officials in India. Enraged by this, Governor-General Warren Hastings persecuted Hickey, and encouraged the publication of officially sanctioned newspapers that could counter the flow of information that damaged the image of the colonial government. By the close of the eighteenth century, a number of newspapers and journals appeared in print. There were Indians, too, who began to publish Indian newspapers. The first to appear was the weekly Bengal Gazette, brought out by Gangadhar Bhattacharya, who was close to Rammohun Roy.

33. ‘Democracy is an accountable, responsive and legitimate form of government’. Explain. 5

Ans :

- (i) Most basic outcomes of democracy should be that it produces a government that is accountable to the citizens, and responsive to the needs and expectations of the citizens.
- (ii) Democracy is based on the idea of deliberation and negotiation. So, some delay is bound to take place but because it has followed procedures, its decisions may be both more acceptable to the people and more effective.
- (iii) A citizen who wants to know if a decision was taken through the correct procedures can find this out. She has the right and the means to examine the process of decision-making. This is known as transparency.
- (iv) The democratic government develops mechanisms for citizens to hold the government accountable and mechanisms for citizens to take part in decision making whenever they think fit.

34. Explain five rights of consumers that protect them from exploitation in the market place. 5 **Ans :**

Rights of consumers:

- (i) **Right to safety :** Consumers are given the right to safety or right to be protected against the goods and services that are hazardous to life and property. For example, Reji Mathew, a boy went for tonsillectomy operation by an ENT but due to improper medication he was crippled for life against which his father filed a case in the consumer court by using right to safety.
- (ii) **Right to be informed :** It is important for the producers to provide certain details on the packaging as the consumers having the right to be informed. These details are like—ingredients used, date of manufacture, expiry date, address of the manufacturer, etc.
- (iii) **Right to information :** It is popularly known as RTI Act, which was passed in October 2005, which gives us the right to know about the functions of the government department. For example: Amritha attended an interview for a job in the government department but did not receive any news regarding the result. Therefore, she filed RTI to know the result so that she can plan ahead.

- (iv) **Right to choose** : According to this, we as consumer have the right to choose what we want to buy in the market and not what the seller wishes to sell. For example: if we want to buy toothpaste and the seller says that we will get toothpaste only when we buy the toothbrush along with it. In this case, our right to choose is denied.
- (v) **Right to seek redressal** : If we are cheated in the Marketplace, then as a consumer, we have the right to get compensation depending on the degree of damage. For example, Prakash sent a money order to his daughter but she did not receive it. Then he enquired about it in the post office but did not get any satisfactory answer. Later on, with the help of consumer forum, he filed a case in the consumer court and got the court verdict.

- (iii) Under NREGA 2005, all those who are able to, and are in need of work are guaranteed 100 days of employment in a year by the government. If the government fails in its duty to provide employment, it will give unemployment allowances to the people.

- 23.** What according to you can reduce the dependence of the poor households on informal sources of credit? Suggest ways to avert this situation. 3

Ans :

The poor households in rural India is bound to lead a very hard life. The reason is that they don't have their own land or any property with them.

They work as landless labourers in the field of big farmers. Whenever they need money, they seek the help of moneylenders, who charge much higher interest on loans. Higher cost of borrowing means a larger part of earning of the borrowers is used to repay the loan and they have less income left for themselves.

This dependence of theirs can be reduced only when the following steps will be taken: (i) Education should be spread in rural areas.

- (ii) The government should assist them in improving their condition.

- (iii) Poor people belonging to rural areas should be made self-sufficient so that they may have a decent life.

3

Ans :

- (i) Some States enjoy a special status. Jammu and Kashmir has its own Constitution. Many provisions of the Indian Constitution are not applicable to this State without the approval of the State Assembly. Indians who are not permanent residents of this State cannot buy land or house here. Similar special provisions exist for some other States of India as well.
- (ii) There are some units of the Indian Union which enjoy very little power. These are areas which are too small to become an independent State but which could not be merged with any of the existing States. These areas, like Chandigarh, or Lakshadweep or the capital city of Delhi, are called Union Territories. These territories do not have the powers of a State. The Central Government has special powers in running these areas.

27. Read the sources given below and answer the questions that follows: 1+1+1=3

Source A – From Travels : Spaghetti and Potato Noodles are believed to have travelled West from China to become spaghetti. Or, perhaps Arab traders took pasta to fifth-century Sicily, an island now in Italy. Similar foods were also known in India and Japan, so the truth about their origins may never be known. Yet such guesswork suggests the possibilities of long-distance cultural contact even in the premodern world.

Source B – Silk Route link the World Trade and cultural exchange always went hand in hand. Early Christian missionaries almost certainly travelled this route to Asia, as did early Muslim preachers a few centuries later. Much before all this, Buddhism emerged from eastern India and spread in several directions through intersecting points on the silk routes.

Source C – Conquest, Disease and Trade Before its ‘discovery’, America had been cut off from regular contact with the rest of the world for millions of years. But from the sixteenth century, its vast lands and abundant crops and minerals began to transform trade and lives everywhere.

Source A – From Travels : Spaghetti and Potato

31. Read the extract and answer the questions that follow:

1+2+2=5 A second test for Indian federation is the language policy. Our Constitution did not give the status of national language to any one language. Hindi was identified as the official language. But Hindi is the mother tongue of only about 40 per cent of Indians. Therefore, there were many safeguards to protect other languages. Besides Hindi, there are 21 other languages recognised as Scheduled Languages by the Constitution. A candidate in an examination conducted for the Central Government positions may opt to take the examination in any of these languages. States too have their own official languages. Much of the government work takes place in the official language of the concerned State.

Unlike Sri Lanka, the leaders of our country adopted a very cautious attitude in spreading the use of Hindi. According to the Constitution, the use of English for official purposes was to stop in 1965. However, many non-Hindi speaking States demanded that the use of English continue. In Tamil Nadu, this movement took a violent form. The Central Government responded by agreeing to continue the use of English along with Hindi for official purposes. Many critics think that this solution favoured the English-speaking elite. Promotion of Hindi continues to be the official policy of the Government of India. Promotion does not mean that the Central Government can impose Hindi on States where people speak a different language. The flexibility shown by Indian political leaders helped our country avoid the kind of situation that Sri Lanka finds itself in.

- (i) How many official languages recognised as scheduled Languages by the Constitution?

- (ii) How does Constitution of India safeguard the other languages?

- (iii) How does India avoid the kind of situation that Sri Lanka finds itself in? **Ans :**

- (i) There are 22 Languages recognised as Scheduled Languages by the Constitution.

- (ii) The Constitution of India did not give the status of national language to any one language.

Hindi was identified as the official language. States too have their own official languages. Much of the government work takes place in the official language of the concerned state. Although only 40% of Indians speak Hindi. Therefore the constitution of India safeguards the other languages and recognised 22 languages as the scheduled languages.

- (iii) Unlike Sri Lanka, the leaders of our country adopted a very cautious altitude in spreading the use of Hindi. Therefore government of India agreed to continue the use of English along with Hindi for official purposes.

Although, promotion of Hindi continues to be the official policy of the Government of India. Promotion does not mean that the Central Government can impose Hindi on states where people speak a different language. The flexibility shown by Indian political leaders helped our country avoid the kind of situation that Sri Lanka finds itself in.

32. Describe how technology enabled globalisation?

Explain with examples. 5

Ans :

Technology: Rapid improvement in technology has been one major factor that has stimulated the globalisation process. For instance, the past fifty years have seen several improvements in transportation technology. This has made much faster delivery of goods across long distances possible at lower costs. Example: Containers for transport of goods.

33. Why is road transport mainly preferred in India? 5

Ans :

- (i) Roads can traverse comparatively more dissected and undulating topography than rail lines.
- (ii) Roads can negotiate higher gradients of slopes and as such can traverse mountains such as the Himalayas.
- (iii) Road transport is economical in transportation of few persons and relatively smaller amount of goods over short distances.
- (iv) Roads also provides door-to-door service, thus the cost of loading and unloading is much lower.
- (v) Road transport is also used as a feeder to other models of transport and they provide a link between railway stations, airports and seaports.

34. When and where was the first jute mill set up in India? Explain the reasons why most of the jute mills concentrated in the Hugli river basin. 5

Ans :

- (i) Rishra, near Kolkata in 1859.

(ii) Factors responsible for location in the Hugli river basin:

- Availability of raw material: The Hugli river basin is rich in extremely good quality alluvial soil. Hence, jute is grown abundantly in this region and raw material is available in this region.
- Abundant water: For jute industry huge amount of water is required. Abundant water is supplied from the Hugli river to the jute industries.
- Network of transport: Inexpensive water transport is provided by the Hugli river itself. Moreover, the region is rich in railways, roadways and water transport. This helped in the growth of jute industry in this region.

'To what corner of the world do they not fly, these swarms of new books? It may be that one here and there contributes something worth knowing, but the very multitude of them is hurtful to scholarship, because it creates a glut, and even in good things satiety is most harmful... [Printers] fill the world with books, not just trifling things (such as I write, perhaps), but stupid, ignorant, slanderous, scandalous, raving, irreligious and seditious books, and the number of them is such that even the valuable publications lose their value.'

SOURCE-B

'The task of the native newspapers and political associations is identical to the role of the Opposition in the House of Commons in Parliament in England. That is of critically examining government policy to suggest improvements, by removing those parts that will not be to the benefit of the people, and also by ensuring speedy implementation.'

These associations ought to carefully study the particular issues, gather diverse relevant information on the nation as well as on what are the possible and desirable improvements, and this will surely earn it considerable influence.'

SOURCE-C

'In 1926, Begum Rokeya Sakhawat Hossein, a noted educationist and literary figure, strongly condemned men for withholding education from women in the name of religion as she addressed the Bengal Women's Education Conference:

'The opponents of female education say that women will become unruly ... Fie! They call themselves Muslims and yet go against the basic tenet of Islam which gives Women an equal right to education. If men are not led astray once educated, why should women?'

'I had always wanted to go to London, and my desire ... was stimulated by letters from an old workmate ... who was now working at the Old Kent Road Gas Works ... I finally decided to go... in November, 1981. With two friends I started out to walk the journey, filled with the hope that we would be able to obtain employment, when we get there, with the kind assistance of my friend ... we had little money when we started, not enough to pay for our food and lodgings each night until we arrived in London. Some days we walked as much as twenty miles, and other days less. Our money was gone at the end of the third day... For two nights we slept out... once under a haystack, and once in an old farm shed... On arrival in London we tried to find ... my friend ... but ... were unsuccessful. Our money was gone, so there was nothing for us to do but to walk around until late at night, and then try to find some place to sleep. We found an old building and slept in it that night. The next day, Sunday, late in the afternoon, we got to the Old Kent Gas Works, and applied for work. To my great surprise, the man we had been looking

for was working, at the time. He spoke to the foreman and I was given a job'.

Migration from India

The example of indentured labour migration from India also illustrates the two-sided nature of the nineteenth-century world. It was a world of faster economic growth as well as great misery, higher incomes for some and poverty for others, technological advances in some areas and new forms of coercion in others.

Source B : Indian

Entrepreneurs

Abroad

Indian traders and moneylenders also followed European colonisers into Africa. Hyderabad Sindhi traders, however, ventured beyond European colonies. From the 1860s they established flourishing emporia at busy ports worldwide, selling local and imported curios to tourists whose numbers were beginning to swell, thanks to the development of safe and comfortable passenger vessels.

Source C : Indian

Trade, Colonialism

and the Global

System

Historically, fine cottons produced in India were exported to Europe. With industrialisation, British cotton manufacture began to expand, and industrialists pressurised the government to restrict cotton imports and protect local industries. Tariffs were imposed on cloth imports into Britain. Consequently, the inflow of fine Indian cotton began to decline.

Q29. Read the extract and answer the questions that follow: 1+2+2=5

Ernst Renan, 'What is a Nation?': In a lecture delivered at the University of Sorbonne in 1882, the French philosopher Ernst Renan (1823-92) outlined his understanding of what makes a nation. The lecture was subsequently published as a famous essay entitled 'Qu'est-ce qu'une nation?' ('What is a Nation?'). In this essay Renan criticises the notion suggested by others that a nation is formed by a common language, race, religion, or territory: 'A nation is the culmination of a long past of endeavours, sacrifice and devotion. A heroic past, great men, glory, that is the social capital upon which one bases a national idea. To have common glories in the past, to have a common will in the present, to have performed great deeds together, to wish to perform still more, these are the essential conditions of being a people. A nation is therefore a large-scale solidarity... Its existence is a daily plebiscite... A province is its inhabitants; if anyone has the right to be consulted, it is the inhabitant. A nation never has any real interest in annexing or holding on to a country against its will. The existence of nations is a good thing, a necessity even. Their existence is a guarantee of liberty, which would be lost if the world had only one law and only one master.

(i) What do you mean by the term Nation?
